Civil War Patriotic Tokens

31 - 64/362 a R4 Raw VF+ Weak but stronger than normal date. 1863 Indian Head Not One Cent signed JGW. From the Steve Tanenbaum and Robert Williams collections. (75-100)

32 - 70/452 a R9 Raw MS63 Trace Red. 1863 Indian Head with 10 inside a ring of 24 stars. Exceedingly rare reverse die, only the second example we have seen offered in fifteen years of any variety. We sold a nice Uncirculated example of 71/452 i in our July 2000 sale for $2,530. From the Steve Tanenbaum, Joe Kuehnert, Jon Harris and George Fuld collections. (3000-4000)

33 - 73/ 74 a R8 Raw EF Details With 3 removed from reverse date. Very rare 1863 Indian Head doubleheader. Despite the rarity rating this is the first example we have seen offered publicly. Exceedingly rare reverse die only available in the Patriotic series in this die combination. (500-750)

34 - 73/84 a R7 Raw AU+ 1863 Indian Heads. Very scarce double header. This is the current Fuld plate token for very scarce die 84 with all stars no date. A FINE+ sold for $190 in our October 2002 auction. From the Steve Tanenbaum and Jon Harris collections earlier from Joe Kuehnert. (500-750)

35 - 77/331 a R4 NGC MS64 BN 10% Red mostly on the reverse with nice toning and luster. 1863 Indian Head Army & Navy. From the Steve Tanenbaum collection earlier from Gary Pipher May 1974. (200-300)

36 - 78/330 a R4 Raw AU+ Trace Red. 1863 Indian Head Army & Navy. Two scarce dies. From the Wayne Stafford collection earlier Rich Hartzog's June 1978 sale. (100-150)

37 - 82/82 a R8 NGC MS65 BN Trace Red more so on the normally struck side. 1863 Indian Head full brockage mint error. These dramatic errors are created when a struck token sticks to the die and fails to eject. A subsequent token such as this is then struck with one normal die and an incused image from the previously struck token. If the first token stays stuck each subsequent strike's incused side is less distinct, an exaggerated example is 107/107 that can come quite blurry. This is a nice sharp early strike. From the Steve Tanenbaum collection earlier from Lawrence Fischman August 1980. (1500-2000)

38 - 85/431 a R8 Raw UNC Details Tiny verdigris spots on reverse. 1863 Indian Head with Value Me As You Pleas spelling error. A VF sold for $577.50 in our March 2010 sale. From the Steve Tanenbaum collection earlier from PCAC's June 1980 sale. (750-1000)

39 - 88/361 a R3 NGC MS63 RB Trace Red with attractive toning and luster. Very late obverse die state as usual with much weakness particularly the date. Reverse die is clashed from an earlier die combination. A similar example sold for $77 in our September 2010 auction. 1863 Not One Cent. Two scarce dies that only come in this combination and unfortunately this die state. (100-150)

40 - 91/432 j R8 NGC AU53 Well struck with nice color. 1863 Indian Head No Compromise With Traitors struck in German Silver. Just the seventh example we have recorded all AU and better. This piece, usually thought of as a collector strike, did see some light circulation. (150-200)

41 - 92/199 a R3 Raw MS63 10% Red all on reverse. Strike a bit weak as always. 1863 Indian Head United States Medal. Rarely seen above EF. From the Steve Tanenbaum and Cindy Wibker collections. (100-150)

42 - 93/362 a R2 Raw EF+ Surprisingly well struck for the variety on a seemingly larger and thicker than normal planchet. Date is full but still slightly weak while the reverse is strong. 1863 Indian Head Not One Cent signed H on the obverse for die sinker Charles D. Horter and signed on the reverse JGW thought to be engraver James Wilson or Horter neighbor and book seller John G. Wells. It is fairly unusual to have the combination of two differently signed dies. From the Ed Rogalski collection. (50-75)

43 - 96/116 b R8 Raw UNC Details With many hairline scratches most noticeable on the reverse. Obverse strike is a bit weak as usual with two letters of headband missing. 1864 Indian Head signed Key Phila with George Washington reverse struck in Brass. We sold a low grade Uncirculated with a slightly weak headband for $594 in our March 2002 auction. From the Ed Rogalski collection. (400-500)

44 - 97/389 a R2 Raw AU+ Trace Red and well struck for variety. Millions For Contractors Fort Lafayette Not One Cent For The Widows. (75-100)

45 - 98/291 a R5 Raw MS63 10% Red well struck for variety with reverse die clashed. 1863 Union and Liberty Indian Head One Country. (150-200)

46 - 104/521 a R9 Raw EF+ Details Well struck for variety with a few light stains. Reverse die cud as usual with some associated weakness in the opposite obverse fields. Indian Head Copper Mine Token struck by A. W. Escherich of Chicago Illinois. Rare variety with rare reverse die though overrated at R9. One of the most detailed examples we have seen offered. A weakly struck EF sold for $550 in our June 2005 sale, while a well struck and likely finest known AU+ brought $1,855 in our July 2012 sale. From the Ed Rogalski collection. (500-750)

47 - 106/0 a Unlisted Raw VG Struck on a large 28mm 6.1 gram planchet of another token or coin. There are still a few letters and parts of design visible but not enough for an identification. The edge has fairly heavy widely spaced vertical reeding. George Washington obverse die signed L.R. for die sinker Robert Lovett. Unique and unlisted. Likely some sort of die trial that then spent considerable time in circulation or as a pocket piece. From the Dave Bowers collection earlier from Walt Korzick. (1000-1500)

48 - 111/271 a R3 Raw MS62 40% Red struck 15% off center. Late rusted die state with typical weakness. 1863 George Washington Union For Ever. (100-150)

49 - 113/114A a R8 NGC MS65 BN Pater Patrie George Washington doubleheader struck in Copper. Rare dies, we sold a raw MS64 40% Red and Proof Like for $1,700 in our February 2014 auction. NGC holder labeled as Baker-95A another designation in the Field of Washingtonia. (1000-1500)

50 - 113/114A b R9 Raw UNC Details Trace Bright with some small stains. Pater Patrie George Washington doubleheader struck in Brass. Rare dies, rarer in Brass than Copper. We sold an AU Copper example in our December 2010 auction that realized $475. From the Ed Rogalski collection. (400-500)

51 - 115/530 g R7 Raw EF Details Small obverse rim notch. This example still retains 80% or more of its original Copper plating. George Washington Don't Tread On Me reverse die with oddly coiled snake. Struck in Lead with Copper plating as usually seen on pieces above VF. This piece along with some related tokens were delisted in the fifth edition Patriotic book because it occurs only in electrotype plated lead. We did not agree with that decision and feel this is the most legitimate use of die 115. Most 115 tokens and 115A for that matter were made to sell to collectors and were never intended to circulate. This example and 115A/530, were likely made by a different die sinker using the Lovett obverse as a pattern (similar to Higgins of Indiana Primitive fame). They did circulate and both come heavily worn and were represented in the "Found In Wall" contemporary hoard of Civil War tokens dispersed by Steve Tanenbaum a number of years ago. They were all made in Lead and likely all Copper plated to facilitate acceptance and circulation; they could even be thought of as contemporary counterfeits. In fact it has already been decided to include these tokens again in the new sixth edition that is currently being planned. We sold an EF with nearly full plating but small areas of pitting on both sides for $440 in our May 2001 sale. (400-500)

52 - 117/420 a R1 Raw AU+ Trace Red mainly on the reverse. Struck with usual obverse die cud, though this one illustrates an interesting transition point as the cud is about to become even larger. 1863 George Washington Exchange. (50-75)

53 - 118/419 a R5 Raw MS64 20% Red mostly on the obverse. 1863 George Washington Peace For Ever with hands shaking labeled North and South on shirt cuffs. Very scarce reverse die, particularly this nice. (150-200)

54 - 120/256 a R9 Raw EF But weakly struck with some planchet flaws. 1863 George Washington Horrors of War Blessings of Peace. Rare die combination, just the third we have recorded. From the Ed Rogalski collection. (200-300)

55 - 121/0 e Unlisted Raw EF+ 20% Bright on the obverse. The blank reverse is slightly rough as made. George Washington with blank reverse struck in White Metal. Very rare obverse die usually only available on the 121/531 die combination. While listed as Unique R10 in both Brass and Silver, this variety is Unlisted in this composition and likely Unique also. We sold a MS62 example of 121/531 a with indistinct reverse due to multiple strikes in our July 2007 sale that realized $2,200. From the Henry South collection. (1000-1500)

56 - 124/294 a R7 Raw EF+ Abraham Lincoln President 1864 Freedom. Very scarce obverse die many times rarer than the 125's. An AU sold for $410 in our February 2014 sale. From the Ed Rogalski collection. (400-500)

57 - 125/417 a R9 Raw UNC Details Reverse clean with many verdigris stains. 1864 Abraham Lincoln with America reverse in Copper. Very rare variety, the third we have seen offered. We sold a MS62 example of the R8 125/417 j variety for $550 in our July 2009 sale. DeWitt AL 1864-51 From the Ed Rogalski collection. (300-400)

58 - 127/177 ao R10 Raw UNC Details But struck on a porous planchet. Struck over Patriotic Civil War token 162/338. Lincoln 1864 First In War First In Peace with George Washington on horseback. Very rare Lincoln die combination in Copper, but Unique over another token. We have records of only three examples of this die combination and composition, all lower grade or with problems. A slightly porous AU brought $451 in our July 2006 auction. Perhaps all could have been struck over 162/338 which itself is notorious for being struck on porous planchet. Possibly this is the only example where the undertype is visible. Regardless an important and interesting token. From the Dave Bowers and Mark Glazer collections. (750-1000)

59 - 127/252 a R9 NGC MS65 BN Trace Red with some attractive toning. Rare Abraham Lincoln / Masonic die combination struck in Copper. A NGC MS63 BN brought $1,540.40 in our December 2008 sale. From the Steve Tanenbaum collection earlier from Harmer Rooke February 1981. (2000-3000)

60 - 128/289 b R3 Raw AU 10% Bright. Struck from clashed dies as usual. Lincoln and Union 1864 struck in Brass. (100-150)

61 - 129/349 a R9 Raw MS64 Or a bit better with 10% Red and nearly Proof Like surfaces. A very unusual token that appears to have been struck over another token or trial piece with a grouping of five P's visible upright and inverted on the Lincoln side. Rare Lincoln struck in Copper with 1864 date and Flags and Cannons reverse, one of just five examples of this variety we have recorded. An example in MS63 with 40% Red sold for $990 in our July 2009 auction. (1000-1500)

62 - 134/184 a R9 NGC MS64 RB 40% Red. Two very rare and popular dies Lincoln Redeemed and Hunting Dogs struck in Copper. This is the only example in our data base. Ed Rosen who bought the George Fuld collection of Rhode Island was primarily a Store Card collector. When he discovered that a number of the pieces he received had been reclassified as Patriotic tokens he thought he had been taken. Fortunately, Steve Tanenbaum came to the rescue purchasing all the unwanted tokens at a considerable premium over what Ed had paid George. In the following years Ed was able to greatly enhance his Store Card collection from this windfall. From the Steve Tanenbaum, Ed Rosen and George Fuld collections. (8000-12000)

63 - 135/199 d R9 Raw MS62 20% Bright struck slightly off center on a larger than normal 20mm planchet. Bisecting obverse die crack. Andrew Jackson For Our Country A Common Cause 1863 United States Medal struck in Brass. We sold a similar example also off center on a 20mm planchet for $316.80 in our July 2006 auction. From the Ed Rogalski collection. (300-400)

67 - 142/347 a R8 Raw MS62 Nearly Proof Like. George McClellan struck in Copper. DeWitt GMcC 1864-38 (300-400)

68 - 143/261 a R1 Raw MS63 40% Red and very well struck. This Medal of G. B. McClellan Price One Cent. (100-150)

71 - 159/469 a R8 Raw VF+ Details With a few light and the usual small obverse rim cuds. 1863 Flying Eagle with Dry Goods And Groceries reverse. Two rare single use dies. An EF+ sold for $750 in our February 2014 auction. From the Ed Rogalski collection. (400-500)

75 - 168/168 a R9 Raw AU Cannon and cannon balls 1863 full brockage mint error. A brockage is created when a struck token adheres to a die and in effect becomes a die itself. The next blank planchet struck receives an incused image of the stuck token. The first few tokens struck in that manner will receive a crisp sharp strike as in this example. When the token creating the brockage remains stuck for a number of strikes its image will become weaker and more spread out with each strike. A MS62 realized $1,500 in our July 2014 auction. (1000-1500)

76 - 169/213 a R2 NGC AU58 BN Popular Peace Maker cannon 1863. (100-150)

77 - 172/429 a R5 Raw EF+ Military Necessity with crossed canons. From the Ed Rogalski collection. (150-200)

78 - 175/403 a R4 Raw MS62 Trace Red all on reverse with a tiny and larger planchet clip. Complete but very weak date as usual. 1863 First In War First in Peace The Union Must & Shall Be Preserved Jackson. From the Steve Tanenbaum earlier from Richard Coslet in June 1979. (200-300)

79 - 180/430 a R4 Raw AU+ Trace Red. Hero Of Pea Ridge with A Penny Saved Is A Penny Earned reverse. (100-150)

80 - 180/341 e R8 Raw AU Details With some light marks in the soft metal. The Hero of Pea Ridge F. Sigel struck in White Metal. The motto is missing on this die combination as always. From Bowers and Merena's November 2002 sale. (150-200)

81 - 181/343 b R9 Raw UNC Details Trace Bright on the obverse. Reverse stained and lettering somewhat blurred from double strike. F. Sigel Union For Ever 1864 struck in Brass. Very scarce obverse die featuring seven stars above a rider on horseback rather than Hero Of Pea Ridge. We sold a similar piece (possibly the same based on description) in our September 2010 auction for $250. From the Ed Rogalski collection. (400-500)

82 - 187/214 g RE R9 Raw AU With 90% original Copper Plating. Time is Money Exigency 1863 The Flag of Our Union struck in Copper Plated Lead. Rare obverse die that is normally seen in the store card series. Almost certainly a contemporary counterfeit made to circulate during the war. This reeded edge example is much rarer than the plain edge variety, just the second we have seen offered. We sold an EF also with nearly full plating for $275 in our October 1999 sale. From the Ed Rogalski collection. (400-500)

365 - LU F-1g R9 Raw EF Details Small planchet clip and smaller obverse rim notch. W. P. E. within wreath with eagle reverse die 1182A struck in Lead. Known and considered a Civil War token for quite some time. Formerly called Patriotic 284A/463 it is now thought to be a Store Card. The issuer has yet to be discovered making for an excellent research opportunity. Philadelphia is likely a good starting point due to the similarity of this piece's reverse to the 1182 reverse of Philadelphia die sinker Robert Lovett Jr.. From the Steve Tanenbaum collection earlier from Doc Carberry in 1989. (300-400)

366 - LU H-1g R9 Raw VG/AG H. H. Union 1861 with George Washington reverse die 1140A struck in Lead. Known and considered a Civil War token for quite some time. Formerly called Patriotic 115/466 it is now thought to be a Store Card. The issuer has yet to be discovered making for another research opportunity. Philadelphia is likely a good starting point due to the similarity of this piece's reverse to a die by Philadelphia die sinker Robert Lovett Jr., though in this instance it was probably used as a model or mold by a different maker as in Patriotic 115/530. From the Henry South collection earlier from Paul Koppenhaver March 1987. (300-400)

367 - LU S-1a R9 Raw MS62 Planchet is a bit rough. Town Branch Store Redeemable in Goods 1864 Indian Head. Long thought to be from East Saginaw Michigan as MI280F-1a and now in limbo. Lexington Kentucky has been suggested in part due to the similarity of the following unlisted piece to Keiningham variety -2b which is also 22mm with 10 Cents reverse that is quite distinctive. From the Henry South collection earlier from Steve Tanenbaum December 1989. (300-400)

368 - LU S-7b Unlisted Raw EF Tiny planchet crack. Town Branch Store Redeemable in Goods 25 Cents struck in Brass with a Reeded edge. This merchant was long thought to be from East Saginaw Michigan and now in limbo. Lexington Kentucky has been suggested in part due to the similarity of this piece with the distinctive -2b variety of J. L. Keiningham of that city. From the Henry South collection earlier from Steve Tanenbaum December 1989. (500-750)

369 - LU U-1b R9 NGC MS61 10% Bright. Wood & Harrison Good For 10 Cents, struck in Brass on a thin Sutler style planchet with John Stanton reverse. Very rare merchant, one of just two we have seen offered. Long listed under Cincinnati Ohio as OH165GQ-1b but no business of this name could be found. It has a strong resemblance to a Sutler's token but likewise, no Sutler partnership could be found with this name. A wonderful research opportunity. From the Henry South collection earlier from our April 1999 sale where it brought $1,897.50 while still considered a Cincinnati token (1000-1500)

370 - LU V-1g Unlisted Raw VF Details With some light marks and 40% or more original Copper plating. Day's New Card with Time is Money Exigency 1863 reverse struck in Copper plated Lead. Known and considered a Civil War token for quite some time. Formerly called Patriotic 187/476 g it is now thought to be a Store Card though omitted from the new Third Edition. Likely the product of the maker of contemporary counterfeit 187/214, in this case making a crude store card with a backwards D in Card. We sold a similar example in our December 2000 as SNL 12g that realized $475.77. From the Henry South collection earlier from PCAC's June 1988 sale. (300-400)

371 - NC LU-A Raw EF+ M. S. C. with Mossin & Marr style eagle on the reverse and consequently assumed to be from Milwaukee but likely not struck until well after the War. This piece is Brass as we believe all were, though listed as Copper in the past. (50-75)

372 - NC OH-C-10a Raw EF Central National Home For D. V. S. Good For 10 Cents At Store. Popular, though post-War, Disabled Veteran Soldiers token. A VF brought $49.50 in our July 2000 auction. Formerly PA750G-2a and NC-40a and given a R8 rarity rating. Cunningham PA110b (75-100)

373 - NC OH-C-10b Raw VF Central National Home For D. V. S. Good For 10 Cents At Store. This piece is Octagonal and is signed Jas. Murdock Jr. 165 Race St. Cin O. unlike the prior two piece which are round and unsigned. Popular, though post-War, Disabled Veteran Soldiers token. Cunningham PA110d (50-75)

374 - NC OH-C-5 Raw EF Central National Home For D. V. S. Good For 5 Cents At Store. Popular, though post-War, Disabled Veteran Soldiers token. Formerly PA750G-1a and NC-39a and given a R6 rarity rating. Cunningham PA110a (50-75)

375 - D. R. BARTON 1832 ROCHESTER NY in a prepared circular punch on the obverse of an 1862 Indian Head Cent. Raw VF Coin GOOD with reverse dents. David R. Barton was a prolific maker of edge tools who's company was founded in 1832. This mark was apparently used in the 1849-1880 time period. (150-200)

376 - I. BISBEE three times on the obverse and once on the reverse of a Hard Times Token HT-181. EF Token VF. Ira Bisbee was a die sinker located in Cincinnati Ohio. The family business was founded in 1835 by Ziba Bisbee. As an interesting tie in for Civil War token collections, John Stanton began work for Ira Bisbee in 1852 at the age of 23, just one year after he moved to Cincinnati. (300-400)

377 - J. A. J. B. twice in an oval bordered incused punch on the obverse of an 1805 Large Cent. VF+ Coin GOOD. An interesting and unusual punch, perhaps even identifiable if it was issued by someone with two middle names. From the Russ Rulau collection. (25-50)

378 - P. APPLE / (Eagle) / PHILa on the obverse of an 1818 Large Cent. Raw VF+ Coin AG. Rulau states that Phillip Apple was one of America's best known early coppersmiths who was active from 1806 to 1839. A very impressive example that was chosen as the plate specimen by Brunk and Rulau. Rulau Early PA 19A From the Dave Bowers reference set earlier from Coin Galleries November 1989. (500-750)

379 - P.E.BALLOU PHRENOLOGIST in a circular punch on reverse of an 1846 Large Cent. Raw EF Coin VF. Issued by Perry Eugene Ballou of Blendon Michigan during the 1870's. Phrenology is the study of the effect of the shape of a persons head on their behavior. We sold an example on a 1871 Two Cent Piece in our April 1996 sale for $242. (500-750)

380 - P.E.BALLOU PHRENOLOGIST in a circular punch on reverse of an 1847 Large Cent. Raw EF Coin VF. Issued by Perry Eugene Ballou of Blendon Michigan during the 1870's. Phrenology is the study of the effect of the shape of a person's head on their behavior. We sold an example on a 1871 Two Cent Piece in our April 1996 sale for $242. From the Dave Bowers reference set. (500-750)

381 - T. BASCOM. on the obverse of an 1802 Large Cent. EF Coin GOOD+ with some light reverse scratches. A maverick with a number of known counterstamps. This date is unlisted and the earliest while 1839 is the latest date example. (25-50)

382 - W. COLLINS three times, once in raised letter and twice incused, plus N-YORK twice incused on the other side of what appears to be a worn, smooth Large Cent 27.8mm 11.6 grams. Raw VF Coin worn smooth. Rulau attributes this to New York silversmith William Collins who was active in the late 1820's to early 1830's. Apparently unique as this would appear the be the Tanenbaum specimen that Rulau refers to though not pictured and not consigned as such. Rulau Early NY 165 (300-400)

383 - DEVINS / & / BOLTON / --- / MONTREAL on the obverse of a (1787) Connecticut Copper. Raw EF Coin Attractive AG with some roughness opposite stamp. Very rarely seen undertype of this popular counterstamp. From the Dave Bowers reference set. (75-100)

384 - DEVINS / & / BOLTON / --- / MONTREAL on the obverse of an 1828 Large Cent. Raw VG Coin G/AG with punch mark, strike of stamp uneven with DEVIN missing. From the Dave Bowers reference set. (25-50)

385 - DEVINS / & / BOLTON / --- / MONTREAL on the obverse of an 1848 Large Cent. Raw EF Coin FINE+. From the Dave Bowers reference set. (50-75)

386 - DOWNES & BAKEWELL / CAST STEEL on both sides of an 1830's style Large Cent. FINE Coin FAIR. A Doggett's New York City Directory Supplement for 1845 listed Downes & Bakewell as Machinists at 104 Elm and a similar stamp is known on a backsaw. (150-200)

387 - A. C. GREEN on both sides of R. G. Tyler Detroit Michigan Civil War token. Raw EF Coin VG but flattened. Counterstamped Civil War tokens are fairly unusual. An A. C. Green Esq. of New York is listed in a 1863 Joint Documents of the State of Michigan as a contributor to the Library for the Asylum Soldiers' Aid Society in Detroit seemingly making this a possible Civil War token in its own right, though pinning down an exact date of issue could be difficult. (75-100)

388 - A. J. HUNT twice on the obverse of an 1851 Large Cent. Raw EF Coin VF. (25-50)

389 - L. G. HILL JOHNSTOWN on the obverse of an 1837 Canadian Half Penny Bank Token. Raw EF Coin VF but cleaned. A L. G. Hill is listed as a gunsmith in Johnstown New York in the Gazetteer and Business Directory of Montgomery and Fulton Counties for 1869-70. (150-200)

390 - J. JONES on the obverse of an 1836 Large Cent. Raw VF Coin VG. Rulau attributes another J. JONES counterstamp but with raised letters to Boston Massachusetts silversmith John B. Jones who was active in the early to mid 1800's. Based on the dates of these counterstamped pieces he attributes them to the Hard Times period, HT-B162. This piece falls nicely in the Hard Times period as well. (100-150)

391 - A. KLINGER / JEWELER / ELKHART IND in curved stamp on the obverse of an 1855 Large Cent. EF Coin VG with some light marks. An impressive counterstamp dated to the 1857-9 period. Rulau Ind 100 From the Dave Bowers reference set. (400-500)

392 - B. LORD in raised letters in a rectangular punch on the obverse of an 1802 Large Cent. Raw VF Coin FAIR. Issued by silversmith Benjamin Lord of Athens Georgia. Very rare early Georgia counterstamp. Rulau Early Ga 30. (500-750)

393 - E. W. LOOMIS on the obverse of 1850s Large Cent. Raw VF Coin FINE but date removed. (25-50)

394 - H - M / N. YORK / 3 / Cents on the obverse of an 1831 Large Cent. EF Coin VG+. The last stamp is in script in raised letter in a form fitting depression. An impressive looking stamp though little is known about its issue. All known examples are 1829 and 1831; Rulau counts four total. Rulau-E NY 303 (300-400)

395 - M. L. MARSHALL on each side of an 1830 Bust Dime. EF Coin VG. Undoubtedly the stamps of Oswego New York fishing tackle and coin dealer Morgan L. Marshall who also issued 1860, 1862 and 1863 dated struck tokens. These were likely struck before 1860 but he was still in business in 1876 per Rulau. Unlisted with this denomination. Rulau NY 1010C From the Steve Tanenbaum collection earlier from PCAC 1981. (300-400)

396 - * O & G * * on the obverse of an 1835 Half Cent. Raw VF Coin FINE. An enigmatic token. Rulau listed as a Hard Times Token as HT-545 a R5. The latest dated host coin found to date is 1837. From the Dave Bowers reference set. (75-100)

397 - ROBINSON & MAC MULLEN round trade token die trial on the obverse of a 1798 Large Cent. Raw AU+ Coin has strong date but most details are missing due to strong strike of the trial. Some planchet splits at rims also from heavy pressure. A similar token is known struck in Brass on an octagonal planchet that was Good For 10 In Trade. Both pieces are still mavericks awaiting discovery. (200-300)

398 - C. A. Strange on the obverse of an 1837 Large Cent. Raw VF Coin GOOD with minor rim bumps. Attributed to the Bangor Maine Brass Founder. Rulau Me-Ba 22 From the Dave Bowers reference set. (25-50)

399 - CURRENCY / J (eagle) S / J. SEETIN apparently with individual letter punches on the obverse and GOOD FOR / 25 / CENTS on the reverse of what appears to be a planed down Large Cent. EF Coin Not Identifiable. An excellent research opportunity. The reverse and denomination remind us of various drayage tokens, but a quick search could find no links. This piece weighs 8.68 grams and though this appears to be the Rulau plate piece, we can see no undertype. That piece is said to be over a New Jersey colonial copper. Rulau Z83 (100-150)

400 - F. R. Strange on the obverse of an 1836 Large Cent. Raw VF Coin VG. From the Dave Bowers reference set. (0-25)

401 - (Unicorn) CT on each side of an 1829 Half Cent. Raw VF Coin GOOD. Unicorn Cigars has been suggested as one possible attribution. (100-150)

402 - J. M. TAYLOR BROKER CHATHAM St. COR. JAMES N.Y. on the obverse of an 1853 Seated Liberty Quarter. VF Coin VG. Miller NY 889C. (50-75)

403 - VOTE THE LAND / FREE on the obverse of an 1833 Large Cent. Raw VF Coin FINE and slightly porous. Popular political token believed to have been issued by the Free Soil party and their candidate, former President Martin Van Buren in 1848. He garnered nearly 300,000 votes but no electoral votes. Dewitt MVB 1848-3 From the Dave Bowers reference set. (150-200)

404 - A. & G. WELLES in raised letters in rectangular punch twice intersecting with four (Eagles) in oval punches on the obverse of an 1803 Large Cent. Raw FINE+ Coin GOOD retoning with some tape residue on reverse. Attributed to Boston by Russ Rulau as the issue of Alfred and George Welles who were jewelers and silversmiths in that city from 1804 to 1827. Rulau Early MA 22 From the Dave Bowers reference set. (200-300)

405 - IAPN logo Los Angeles June 1980 on the reverse of a 1976-D Type One Eisenhower Bicentennial Dollar. Raw MS63 Coin MS63. A very neat numismatic related counterstamp from the International Association of Professional Numismatists' 29th General Assembly. From the Dave Bowers reference set. (0-25)

406 - Whitcom 1827 in raised script letters on a Spanish one Real. VF Coin POOR. A possible first initial is weak and could be an A, H or something else. Presumably a .6 is missing after the date. A very intriguing stamp in need of further research, unlisted on a one real. Rulau-E Mav 57B (100-150)

407 - WIS & (P)ERRY / SHOES / NO 137 / (BR)OADWAY on the obverse of an 1835 Large Cent. FINE Coin AG. A few letters missing or weak. Presumably a New York firm but a quick search found not matches. A Lloyd Perry at that address was listed as a Notary Public in the 1899 edition of Bender's Lawyer Directory. Wis would seem to be an unusual surname so additional research should prove productive. (150-200)
